

6-12909

MYRL GREENE, SECURITY, tests the strength of the giant icicles that hung most of last week from Building 9706-2. Despite temperatures that went down as low as the famous Winter of '05, plant operations continued as always. One employee lost an auto due to fire . . . there were several dented fenders, frayed nerves, frozen pipes at home, frost-bitten noses, and complaints about the weather. The Safety Department reports a minimum of falls on the ice . . . and in the eight-inch snow.

Strother To Head University Relations

Corneille O. Strother, vice president of the Nuclear Division of Union Carbide, has been named Director of University Relations for the corporation. Dr. Strother, in his new position, will coordinate the corporation's efforts to secure and maintain an adequate supply of able technical and professional personnel. He joined Union Carbide in 1935.

UCC Board Declares Quarterly Dividend

The Board of Directors of Union Carbide Corporation has declared a quarterly dividend of 50 cents a share on outstanding capital stock of the corporation, payable March 2 to stockholders of record at the close of business February 4, 1966.

The last quarterly dividend was fifty cents per share paid December 1, 1965.

Du Pont Fibers Man Is ACS Highlighter

Dinner Meeting Is Set, February 16

The East Tennessee Section of the American Chemical Society will meet next Wednesday, February 16. The dinner meeting is set at the Holiday Inn, Oak Ridge, with an informal dinner beginning at 6:30 p.m. The technical address will be at 8.

P. W. Morgan, Textile Fibers Department, E. I. du Pont Nemours, Wilmington, will speak on "Condensation Polymers by Low-Temperature Methods."

Dr. Morgan holds a PhD in organic chemistry from Ohio State University, after doing undergraduate work at the University of Maine. He has more than 60 publications and patents to his credit, on such subjects as cellulose derivatives, alkoxyl analysis, plant pigments, moisture permeability of polymeric films, photostability of dyes and polymers, low-temperature methods for synthesis of condensation polymers, polymers with high thermal stability. He published a book last year on "Condensation Polymers by Interfacial and Solution Methods."

Discussion of the application of the techniques of condensing polymers will include (1) a description of typical polymerization methods, (2) examples of different types of polymers which may be made, such as elastomers, high-temperature stable polymers and inherently colored structures, and (3) unpublished work on structure-property relationships in polymers.

The public is invited to attend ACS's February meeting, as it should prove interesting.

Stanford Professor Joins Stellite Division

Dr. William D. Nix, assistant professor of material science at Stanford University's School of Engineering has joined the Stellite Division of Union Carbide Corporation. Dr. Nix has joined the technology department for one year and will work with personnel under the Ford Foundation's "Residencies in Engineering Practice" program. He is one of the first educators in the United States to join the staff of an industrial technology department under this program. It is intended to provide the opportunity for educators in the fields of engineering to gain first-hand experience on the application of engineering practices to the solution of industrial problems.

More Vacations Spur Y-12ers To Interesting Plans For Year

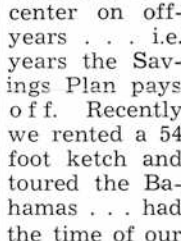

Last week, during all the snow and sub-zero weather, was a good time to muse on vacations. With most Y-12ers coming up with an extra week, or two in some cases, a spot check throughout the plant revealed some rather elaborate plans for the sunnier days ahead.

For instance:

Frank Fuis Jr., Tool Engineering. "Extra vacation couldn't have come at a better time for me. We plan to take a week sometime in June to see Gary's graduation. (Gary will graduate number one in his class at Cornell this year). Then there's that time over in the Ozarks to visit my mother and other relatives. Too, we wanted to squeeze in a tour of Williamsburg, Virginia; and Washington, D. C. this summer. With five weeks of vacation (Frank's continuous service date is January 24, 1944) we have ample time for all these things now."

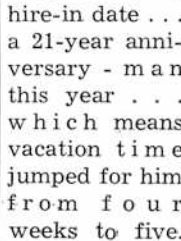

Ed Palmer, Tool Engineering. "Normally our big vacation plans center on off-years . . . i.e. years the Savings Plan pays off. Recently we rented a 54 foot ketch and toured the Bahamas . . . had the time of our lives. An extra week this year will probably give us time to take the old cruiser down to Guntersville, Alabama. One week I am saving for a catch-as-catch-can proposition . . . that is, we want the day after Thanksgiving, a day or two around Christmas, and so on." Palmer has been here since January 7, 1957.

Ed Cook, Electrical. Ed's continuous service date is February 26, 1953 . . . he jumped from three weeks to four this year. "I haven't scheduled that extra week yet," Ed related, "I am waiting around to see when it is best to take it . . . so that we can plan a deep-sea fishing expedition down around Panama City. Boy, we sure could use some of that Florida weather around here now, couldn't we?"

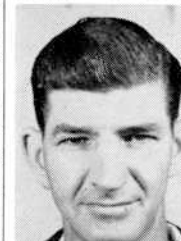

Otis Rackley, 9766 Machine Shop. June 13, 1945 was Otis's hire-in date . . . a 21-year anniversary - man this year . . . which means vacation time jumped for him from four weeks to five. "Ann and I plan to visit her folks in Texas on one vacation . . . the other part will be spent in Florida. I guess you could say that we will spend more time in

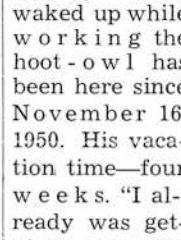

Jack Cowen, General Mechanical Engineering. Jack came to Y-12 March 12, 1958 . . . eight years ago next month. His vacation increased from two weeks to three this year. "Golly, I really don't know. I hadn't even made plans for the two I was expecting . . . let alone the added week I get this year. Sorry." (It should

Florida this year than we would have normally done. Time spent in the tropics, storing up that sunshine, sure isn't wasted."

Rufus Knott, General Machine Shop. "In one word, golf! The way I play, another added week of play won't hurt in the least. Of course, we plan to take the kids up in the mountains for two or three days . . . that was planned already before I got a 'bonus' week. The Deane Hill fairways will just see a little extra of me this summer, I guess." Rufus came here April 19, 1954.

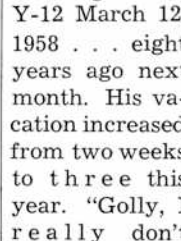

C. Bryant, Guard Department. "Shorty" who doesn't mind being waked up while working the hoot-owl has been here since November 16, 1950. His vacation time—four weeks. "I already was getting three weeks vacation, and scheduling that was hard enough. With an extra week, I'll probably just take PLV . . . it's easier that way. You can always use that extra money. We're not big travelers anyway, just stick around home. I have nothing special planned even for the three weeks I will take."

Lou Fitzgerald, Physical Testing. A 15-year veteran, Lou pulls down four weeks' vacation this year. "I hate to be a party-pooper, but one week (that extra one) will be pay-in-lieu-of-vacation for me. You see, my daughter graduates from high school this year . . . and enters the University of Kentucky this fall. That extra money about September will just about do it." (When chided about having a Kentucky fan in the family, Lou admitted they were all Big Blue fans anyway. "I come from Kentucky, you know," he smiled.)

Jack Cowen, General Mechanical Engineering. Jack came to Y-12 March 12, 1958 . . . eight years ago next month. His vacation increased from two weeks to three this year. "Golly, I really don't know. I hadn't even made plans for the two I was expecting . . . let alone the added week I get this year. Sorry." (It should

THE FIREBALLS keep the alleys hot for C League bowlers. Seen above are Gene Cowan, Carl Frazier, Tom Gallups, Captain Jim McLain and Vern Beckner.

Badgers In C League Lead Tie

The Badgers moved up to tie the Rounders in last week's C League bowling. The Badgers clipped four points from the Rollmasters. The Rounders shared two with the Invalids. The Strikers struck four at the expense of the Rodders. Three point wins went to the Sunflowers over the Fireballs and the Parbusters over the HiLifers. The Shud-A-Beens and Big Five split two.

Ray Galford, Big Five, made big news rolling a single game of 258, topped off to a 270 handicap game. J. H. Householder, Strikers, also struck long and hard by coping a 628 scratch series, which added up to a 724 handicap series!

The Badgers swept team honors all the way ... singles of 1030 scratch, 1172 handicap; series of 2708 and 3134.

Team	W	L
Rounders	19	5
Badgers	19	5
Sunflowers	17	7
Parbusters	13	11
Strikers	13	11
Invalids	11	13
Rodders	10	14
HiLifers	10	14
Rollmasters	9	15
Fireballs	9	15
Shud-A-Beens	7	17
Big Five	7	17

Fabrication Dance Brings Hosts Out

"We didn't realize we were that young," commented someone after attending the Fabrication Division's big January 28 dinner-dance.

The party was staged at the Deane Hill Country Club, Knoxville, and included dinner and dancing to two orchestras ... Dick Jones and the Dynamics. The moppet-haired young outfit turned out to be the hit of the show ... as partygoers 'frugged' did the Shanghai, monkey, Wat-tusi, the bends, etc., etc. (Of course, some of them didn't feel too young come Saturday morning.)

The get-acquainted hour came at 6:30 ... dinner started at 7:30 ... and dancing began at 9 p.m.

A crowd showed up early, too. And they kept coming ... to fill the rafters at the club.

'Nice party,' everyone agreed. So do we.

Has Beens Are Hot In Basketball

The Fearless Five opened last week's Basketball League play by taking their first win of the second half from the Nats ... 67 to 47. The Five played steady ball and gradually pulled away from their opponents with Cloy Goetch throwing from any position and making them good. Substituting freely, the Five saw Jim McCall and Goetch with 15 each. Wayne Parsons led the losers with 16 through the basket.

Game number two in the snow and ice Monday saw the Bombers lower the boom on the Isotopes 66 to 30. Tom Kress led the Bombers with 20 points, stealing the ball many times for fast-break lay-ups. Ray Neighbors helped Kress' cause with 16 through the hoop. Reid Gryder and Terry Mothershed led the losing squad's scoring, each with nine.

Has Beens All Hot

Y-12's improving Has Beens proved hot on the cold night ... Bill Kirksey leading the big parade with 21. He was followed closely by Don Burton and Bill Schillenger each with 18. The score could have been greater had not the Has Beens passed the ball around freely, giving everyone an opportunity to shoot.

In Wednesday's first foray, the Has Beens returned hot again to the floors downing Y-12's Collegians 74 to 33, with all five team members on the winning squad shooting into double figures ... Don Burton, 21; Bob Henderson, 14; Bob Culton and Terry Love, 10 ... and Bill Kirksey, 11. Jim Froula led the losers with 10 points.

Metals and Ceramics made losers out of the Losers in Wednesday's second game, 43 to 15. Jim Atherton led the M&C squad, sparking 20 big points through the bucket. He was followed by Roy Vandermeer with 12. For the Losers it was Jack Yost and Ed Madden, four each.

The Bombers sparked their second win of the week by taking the Fungi 53 to 22. Roy Neighbors was in there again, this time with 15. Tom Kress and Elmer Lee had 12 each. For the Fungi it was Ed Bailiff with 10 and Jim Brick with six.

League standings follow:

Team	W	L
Has Beens, Y-12	4	0
Metals & Ceramics, ORNL	3	0
Bombers, ORNL	2	0
Fearless Five, ORNL	1	0
Nats, ORNL	1	2
Collegians, Y-12	1	2
Fungi, ORNL	0	2
Losers, Y-12	0	3
Isotopes, K-25	0	3

Recreation

Saturday, February 12

TECHNICAL SERVICES VAL-ENTINE DANCE: Dinner - dance, beginning at 6 p.m., Oak Terrace, Oak Ridge.

Sunday, February 13

SKEET TOURNAMENT: 1 p.m. Oak Ridge Sportsman's Association Range.

Monday, February 14

BOWLING: C League 5:45 p.m., Bush League, 8 p.m., Ark Lanes.

TABLE TENNIS: 7 p.m. Wild Cats Den, Oak Ridge.

BASKETBALL: Beginning 6:30 p.m., Oak Ridge High School Gymnasium. Bombers vs. Nats; Losers vs. Fearless Five; Isotopes vs. Has Beens.

Tuesday, February 15

PHYSICAL FITNESS: 7:30 p.m. Oak Ridge High School Gymnasium.

Wednesday, February 16

BOWLING: Mixed League, 8 p.m., Ark Lanes.

BASKETBALL: Beginning 6:30 p.m. Jefferson Junior High School Gymnasium. Nats vs. The Fungi; Metals & Ceramics vs. Fearless Five; Bombers vs. Collegians.

Thursday, February 17

BOWLING: Classic League, 5:45 p.m., Ark Lanes.

VOLLEYBALL: Beginning 6:30 p.m. Robertsville Junior High School Gymnasium. Court One: Set-Ups vs. Bat Boys; Reactors vs. Eagles; Neutrinos vs. Naughts. Court Two: Ecobums vs. K-25 Instruments; Old Men vs. Mix-Ups; Yanks vs. Beavers.

BOWLING DEADLINE FOR ROLLING 12 GAMES TO BE ELIGIBLE IN MARCH 5, 6 TOURNAMENT!

Mixed Bowlers See Goofers Edge Up

The Goofers edged up toward the top of the Mixed Bowling League last week by clipping the Chumps for four points. The league-leaders, the Better Halves, took three from the Subs. The Alley Cats mustered three from the Mustangs and the Blue Angels took three from the Twisters.

Jeri Kobisk, Alley Cats, hit high singles for women, rolling a 191 scratch, 243 handicap game. Irene Carmack, Mustangs, posted a 478 scratch series ... and Jeri returned to the boards with a 624 handicap series. C. C. Roberts, Blue Angels, flashed hot with a 244 scratch game, boosted to a 286 handicap single. Bill Stephens, Goofers, got a 586 scratch series. His teammate Bob Hagood rolled top handicap series.

The Mustangs rolled high scratch games of 690 in singles, 1953 in series. The Alley Cats posted a handicap single count of 839 and the Goofers got a 2370 handicap series.

The K-25 Instruments won three from the Reactors 15-8, 15-9 and 15-11 ... the Reactors taking one 15-9.

Y-12's Eagles won three from the Naughts 15-11, 15-9 and 15-1. The ORNL Naughts took one game, 16-14.

HAPPINESS IS A CHASE

A happy girl is one that is being chased by a man she thinks she's chasing.

THE WASPS, who sting whenever they can, bear one of the Classic Bowling League's noble entries into the arena. In front row from left are F. K. Clabough and C. F. Peterson. Standing are J. D. Davis, W. C. Hoppe, and H. J. Ratjen. Captain R. P. Wallace wasn't around at picture-taking time.

Bumpers Bomb Tigers To Take Helm For Classic Lead In Second Half Race

The Bumpers bull-dozed their way into the lead of the Classic Bowlers last week by a four-point win over the Tigers. The only other sweep of the night went to the Swingsters over the Screwballs. Taking three were the Markers over the All Stars, the Eightballs past the Cubs, the Playboys past the Rippers, the Splinters superior to the Smelt-

ers, and the Rebels 'round the Wolves. Sharing two were the Wasps and Has Beens.

Clyde Craven, Bumpers, took the high single game of the night in scratch count, rolling a 224. Irv Speas, Markers, posted high handicap scoring with a 249 single, 661 series. J. W. "Red" Halsey, Bumpers, rolled an even 600 series scratch.

The Markers marked best in singles, with 945 scratch, 1077 handicap. The Bumpers took high scratch series of 2648 ... and the Markers returned to the boards with 3022 handicap series.

League standings follow:

Team	W	L
Bumpers	15	5
Markers	14	6
Tigers	13	7
Wolves	13	7
Swingsters	13	7
Eightballs	12	8
Has Beens	11	9
Cubs	10	10
Rippers	9	11
Playboys	9	11
Splinters	9	11
Rebels	8	12
All Stars	7	13
Smelters	6	14
Wasps	6	14
Screwballs	5	15

Beavers Still Best In Volleyball Loop

The Volleyball League saw action fast and furious despite last week's weather. The League leaders, Y-12's Beavers clipped four at the expense of the Ecobums, 15-9, 15-3, 16-14 and 15-3. Next in line, the ORNL Set-Ups gleaned four from the Mix-Ups, 15-4, 15-12, 15-9, and 15-9.

The Neutrinos, also from ORNL, won four from the Y-12 Bat Boys, 15-3, 15-2, 15-10, and 15-3. The ORNL Old Men won four from the Y-12 Yanks 15-2, 15-3, 15-0 and 15-0 and in a make-up game took one from the Ecobums 15-11.

The K-25 Instruments won three from the Reactors 15-8, 15-9 and 15-11 ... the Reactors taking one 15-9.

Y-12's Eagles won three from the Naughts 15-11, 15-9 and 15-1. The ORNL Naughts took one game, 16-14.

League standings follow:

Team	W	L
Y-12 Beavers	27	1
Set-Ups, ORNL	23	5
Neutrinos, ORNL	21	7
Old Men, ORNL	18	10
Ecobums, ORNL	18	10
K-25 Instruments	17	11
Eagles, Y-12	16	12
Reactors, ORNL	13	15
Naughts, ORNL	10	18
Mix-Ups, K-25	2	22
Bat Boys, K-25	2	26
Yanks, Y-12	1	27

Vacations Spur Y-12ers...

Continued from Page 1
be pointed out here and now that sub-zero weather is not very conducive to vacation - planning. Many other people were called and some expressed surprise at the question at this particular time. Even though vacations may be scheduled, they aren't planned yet.)

Nell Miller, Laboratory Operations. "Extra vacation? I haven't even given it a thought. But if this weather keeps up... I'm going to have to take a week, just to dig out. I never really take fancy vacations, but would like to go to Florida in about a month. They say this cold wave extends even that far... so going now wouldn't help much." Nell's continuous service date goes back to February 1, 1955... so it's a good solid four weeks for her in 1966!

Nell Miller

Thermal Blanket Was Omitted From Awards

Y-12ers are busy this week selecting their big safety award for 1965's two periods without a lost-time accident.

In last week's Bulletin it was stated there were 17 items... when, in truth, there are 18. A Thermal Blanket for a double bed is the item omitted in the story and photograph last week. The sample was not in, hence the omission.

Could it be that last week's weather made a dishonest man out of someone?

IEEE Meeting Is Set Tomorrow In Oak Ridge

The Oak Ridge Section of the Institute of Electrical and Electronic Engineers will meet Thursday, February 10, at 7:30 p.m. in the Green Room of the Ridge Recreation Hall. James C. Key Jr., Senior Mechanical Engineer in the Steam Plant Machinery and Piping Design Section of the Tennessee Valley Authority will speak on the "Design of the Bull Run Steam Plant."

The public is invited to tomorrow night's meeting. Refreshments will be served.

B Shift Plans Fun Night This Friday

Excellent prizes for all games is the announced program for B Shift's big Fun Night, Friday, February 11. Activities get underway at 7:30 p.m. at the Oak Ridge Marina.

There will be 20 games with two winners per game.

B Shiftmen are inviting all Y-12ers and their families out Friday for the fun.

Jane Brown, Dispatching. "I haven't even given it a thought."

Jane Brown

Last year I went to Nassau... but won't be able to do that this year. Last year was a Savings Plan year, you know. I do hope to get to Florida... and to St. Louis this year... will want to spend some time with my brother during semesters... but as far as that extra week is concerned, I just don't know. Jumping from two to three weeks is just to big a shock. Don't get me wrong, I'm happy to have that extra time!" Jane came to Y-12 rather recently compared to many a veteran, hiring in on March 28, 1960.

And so it goes. Longer trips, extra time on the lakes or in the mountains, another week at home with the folks, a dreamed-of tour of some special place. And how do you plan to use that extra time you'll have?

Huddleston Moves Up In Table Tennis

Three matches went under the dam in the X Table Tennis last week. B. Bullock defeated F. W. Shull four games. Roy Huddleston moved up to tie Loyd Wyatt for first place after a four-game win over K. Bunzl. W. D. Jones took H. Mook for four.

X League standings:

Player	W	L
R. L. Huddleston	13	2
L. E. Wyatt	13	2
W. B. Motley	8	2
W. A. Maddux	8	7
B. Bullock	4	6
K. Bunzl	6	9
W. D. Jones	6	9
H. Mook	6	9
F. W. Shull	1	14
M. E. O'Hara	0	5

The only games the Y League saw were the Uppuluri-Brewer match... Uppuluri taking three of the five games.

A. J. Norris	8	2
V. R. R. Uppuluri	11	4
G. W. Brewer	9	6
E. F. Gambill	5	5
J. Lewin	5	5
A. J. Weinberger	5	5
F. Kertesz	2	8
H. O. Lutz	0	5
R. Pilloton	0	5
Campbell King	0	0

Next Week Is Deadline For Rolling Alley Games

Bowlers have until next week... or Thursday, February 17, to be exact... to get 12 sanctioned games on the books to be eligible for the big Y-12 tournament, coming in March.

The plant bowling competition is set for Saturday and Sunday, March 5, 6... at Ark Lanes.

Participants need those twelve games in to certify an average... so time's a-wasting. Hit those alleys now... if you want in the Bowling Tournament.

Trying to keep a good man down is as difficult as trying to keep a worthless one up.

Mid-February thaws out more Y-12ers, celebrating important milestones with Union Carbide Corporation. Congratulations.

20 YEARS

Walter W. Rice, Production Asst., February 14.

15 YEARS

Will B. Davis, Guard Department, February 9.

Eva M. Love, Chemical Services, February 12.

Sam N. Tadlock, Area Five Maintenance, February 12.

William Warmley Jr., Janitors Department, February 12.

Sherman L. Ray, Guard Department, February 12.

Harry Baker, Area Five Maintenance, February 12.

Johnnie C. Jordan Jr., Gage Certification Laboratory, February 12.

Helen Y. Stone, Superintendent's Division, February 12.

James D. Burns Jr., Estimating and Tooling Coordination, February 12.

Charles R. Coston, General Machine Shop, February 13.

Charles R. Williams, Process Maintenance, February 13.

Guy L. Tate, General Expediting and Auxiliary Services, February 14.

William L. Fairbanks Sr., Arc Melting, February 14.

Andy T. Goodwin, Process Maintenance, February 15.

John T. Gallups, Area Five Maintenance, February 15.

10 YEARS

James C. Jones, 9766 Machine Shop, February 13.

ENGAGEMENTS

Miss Mary Marvene Thompson

THOMPSON - JENKINS

Mr. and Mrs. Samuel M. Thompson, Route 2, Kingston, announce the engagement of their daughter Miss Mary Marvene Thompson. She is engaged to marry Mr. Cecil Ray Jenkins, son of Mrs. Lee Reed, Route 2, Kingston, and Mr. Cecil Jenkins, Fairfield, California.

The bride-elect will graduate from Roane County High School this year and will also graduate this summer from the Roane School of Beauty.

The prospective groom was a 1964 graduate of Roane County High School and is presently serving in the United States Army, stationed at Fort Ord, California.

Miss Thompson's father is in Y-12's Area Five Maintenance.

'Hearts and Flowers' Is Theme Saturday For Technical Services At Oak Terrace

The Technical Services Division is going down that old "hearts and flowers" routine for their big dance Saturday night, February 12. The big party will be held at the Oak Terrace, Oak Ridge.

TS folks say that the social hour begins at 6 p.m. ... a smorgasbord dinner at 7:30 ... and dancing to the music of the Martiniques at 9.

Cost of the total outlay is only \$10 per couple ... and tickets are available from Jack Gresham, George Evans, Katy Blankenship, Mary Ann Wright, Earl Price, Marian Dill, Bea Cameron, and Daisy Ward. Daisy, who has

been acting as coordinator for the big party, has been directing operations from her hospital bed and recovery room at home ... but don't let that fool you any. This promises to be the biggest and best Technical party yet. And they have had some good ones!

While it's more fun to bring that date or spouse, stags are not discouraged ... just divide that \$10 by two and you come up with five!

See any of the above folks for tickets. They have reported a brisk sale so far, and will be happy to unload the rest of the ducats off on you.

Carolyn Cook Is Powell Hi Beauty

Carolyn Cook
Powell Beauty Queen

Carolyn Cook, daughter of Mr. and Mrs. Clyde Cook, Blueberry Road, Powell, has been crowned Beauty Queen at Powell High School. Following in her older sister Jean's foot-steps, Carolyn is a busy teen at Powell. Her father is in Y-12's Fire Department.

The Powell senior is busy, busy, active in the Y-Teens, Deltas, Pep Club, Fellowship of Christian Athletes, Future Homemakers of America, Science Club and Debate Club. She is a varsity cheerleader, and was named Friendliest Girl in the school's annual superlative list.

Carolyn nosed out 15 other contestants in the Powell school beauty contest.

College plans have not jelled yet for the Cook daughter ... other than definite college days ahead.

Experimental Drama Is Local Week-End Fare

The Oak Ridge Playhouse's Studio Theatre presents Max Frisch's "Biederman and the Firebugs" Friday, Saturday, and Sunday, February 11, 12, and 13. Curtain time at 8:20 Friday and Saturday and 8 on Sunday. The allegorical tragi-comedy is free to season ticket holders. A small charge will be made to non subscribers.

And then there was the woman who told her husband, "Be an angel and let me drive." He did and he is.

Car pool member wanted from Woodland section, Oak Ridge, to West Portal, straight day. Jake Lusk, plant phone 3-5835, home phone Oak Ridge 483-5787.

Rider wanted from Washington Pike area, Valley View, Smithwood, Inskip vicinities, to East, North or Central Portal, straight day. W. L. McCormick, plant phone 3-7951, home phone Knoxville 522-5206.

Ride wanted from 2410 Fairmont Boulevard, North Knoxville, to North Portal, E Shift. D. N. Sideris, plant phone 3-7103, home phone Knoxville 524-7964.

Will join car pool from West Magnolia Lane, near Jackson Square, Oak Ridge, to Central Portal, straight day, C. G. Bell, plant phone 3-5621, home phone Oak Ridge 483-9503.

Waddle Is Appreciative Of Long Friendships

Robert H. Waddle, recently retired from the Laundry, stopped by the Bulletin Office to say goodbye recently. He also wanted to thank his fellow employees for their generosity in giving him the gift certificate.

"But my thanks are especially for the friendship offered me during the past 20 years. I shall not forget my close associations throughout the plant ... both in Y-12 and Paducah. My fellow employees made my entire stay at both plants a joy," Bob stated.

Strehlow Leads Weekly Thermonuclear Seminar

R. A. Strehlow will lead this week's Thermonuclear Division seminar. He will discuss "Residual Gas Analysis In Vacuum Systems."

The seminar is set for Friday, February 10, at 9 a.m. in the TD Conference Room, Building 9201-2.

Dress And Baird Led Physics Division Seminar

W. B. Dress and J. K. Baird, will lead this week's Physics Division Seminar, discussing "A Search for the Electric Dipole Moment of the Neutron."

The seminar will be held Friday, February 11, in the Central Auditorium of ORNL's 4500 building, at 3:15 p.m.
